THE O. & O. Company's Steamship "COPTIC" will be despatched for SAN FRANCISCO, via SHANGHAI, NAGASAKI, KOBE, INLAND SEA, YOKOHAMA and HONOLULU, on SATURDAY, the 26th instant, at Noon, taking Freight for Japan, the United States, and Europe. Passengers are allowed to break their journey at any point in route.

Through Passage-Tickets granted to England, France and Germany by all trans-Atlantic lines of Steamers, and to the principal cities of the United States or Canada.

Passengers holding through ORDERS TO EUROPE have the choice of the Overland Rail Routes from San Francisco, including the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and NORTHERN PACIFIC RAILWAY; also the CANADIAN PACIFIC RAILWAY on payment of £4 in addition to the regular tariff rate.

Passengers holding Orders for OVERLAND CITIES in the United States have between SAN FRANCISCO and CHICAGO, the option of the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and other direct connecting Railways, and from Chicago to destination the choice of direct lines.

Special rates (First-class only) to European Ports, are granted to Missionaries, Members of the Naval, Military, Diplomatic and Consular Services, and European Civil Service Officials located in Asia, and to European Officials in the Service of the Governments of China and Japan.

TO UNITED STATES and CANADIAN PORTS, Special rates (first class only) are confined and will apply only to Missionaries, Members of the Naval and Military Services, and to Consular and Diplomatic Officials of the Governments of China and Japan.

Return Passage.—Reduction will be made to passengers who do not hold return tickets, making the return journey between ports in the Orient and Honolulu or beyond, within twelve months.

Through Bills of Lading issued for transportation to Yokohama and other Japan Ports, to San Francisco, to Atlantic and Inland Cities of the United States, via Overland Railway, to Havana, Trinidad, and Demerara, and to ports in Mexico, Central and South America, by the Companies' and connecting Steamers.

Freight will be received on board until 4 P.M. the day previous to sailing. Parcel Packages will be received at the Office until 5 P.M. same day; all Parcel Packages should be marked to address in full; value of same is required.

Consular Invoices to accompany each shipment of Cargo or parcel (valued at \$100. Gold or over) destined to Points, beyond San Francisco, in the United States, should be sent to the Companies' Office addressed to the Collector of Customs at San Francisco.

Merchant's Invoice will be sufficient for cargo or parcel (each shipment) when the value is less than \$100. U.S. Gold.

For further information as to Passage and Freight, apply to the Agency of the Companies, Queen's Building.

Close connection is made at Montreal, Quebec, Halifax, New York and Boston with all Trans-Atlantic Lines, which passengers to Great Britain and the Continent are given choice of.

Passengers Booked through to all principal points and AROUND THE WORLD.

Return tickets to various points at reduced rates, Good for 4, 6, 9 and 12 months.

SPECIAL RATES (First class only) granted to Missionaries, Members of the Naval, Military, Diplomatic and Civil Services, and to European Officials in the Service of China and Japan Governments.

The attractive features of the Company's route embrace its PALATIAL STEAMSHIPS, (second to none in the World), the LUXURIANCE OF ITS TRANS-CONTINENTAL TRAINS (the Company having received the highest award for same at Chicago World's Exhibition), and the diversity of MAGNIFICENT MOUNTAIN AND LAKE SCENERY through which the Railway passes.

THE DINING CARS and MOUNTAIN HOTELS of this route are owned and operated by the Company, and their appointments and Cuisine are unexcelled.

Length inside, 514 ft. Width of
entrance, top 95 ft., bottom 75 ft.
Water on blocks, 27.5 ft. Time to
pump out, 4 hours.

No. 2 DOCK.

Length inside, 375 ft. Width of
entrance, top 60.5 ft., bottom 45.8
ft. Water on blocks, 26.5 ft. Time
to pump out, 2 hours.

THESE DOCKS are conveniently situated in Yokohama harbour and the attention of
Captains and Engineers is respectfully called to the advantages offered for Dock-
ing and repairing Vessels and Machinery of every description.

The plant and tools are of recent patterns for dealing quickly and cheaply with work,
and a large stock of material is always at hand, (plates and angles all being tested by
Lloyds' surveyors).

Two powerful Twin Screw Towboats are available for taking Vessels in or out of
Dock, and for taking Sailing Vessels in or out of the bay. The floating derrick is capable
of lifting 35 tons.

Steam Launches of Steel or Wood, Lighters, Steel Buildings and Roofs, Bridge
Work, and all kinds of Machinery are made on the premises.

Tenders will be made up when required and the workmanship and material will be
guaranteed.

The cost of Docking, and repair work, will be found to compare favourably with that
of any port in the world.

THE KWANGSI REBELLION.

Every one believes that Viceroy Tsen will be able to suppress the Kwangsi rebellion at an early date, the *Sin Wan Pao* remarks, but we do not think so. Immediate success cannot be considered a good result unless there will be no danger of being defeated afterwards. Wang Chih-chun had memorialized the Throne of his success which was afterwards proved to be only a temporary one, so that early success does not always continue. Since Marshal Su has been unable to suppress the rebellion, a great many more rebels arose in nearly every village; and in nearly every home there were rebels. Many have come to the conclusion that severe punishment should be meted to the rebels, and even Viceroy Tsen approves of this. Thousands of rebels had been put to death when ex-Governor Wang and Marshal Su were holding their seals, and still there are many of them. It is impossible to punish all the rebels. For the present if one soldier is required to fight against one rebel, there will be not enough men to do this work; and so it was found that if one soldier be strong enough to stand against ten rebels then a wholesale suppression can be effected. We had heard that the soldiers under command of the Viceroy were defeated on many occasions. With regard to the way of advising the rebels to surrender one man cannot undertake this task and do it with an early success. It must require time before any good result can be obtained. As the trouble in Kwangsi is so serious, every one understands that it will be impossible to restore peace in a short time. We consider that it is a mistake for Viceroy Tsen to carry out his military work too far. As the troops of other provinces are not familiar with the geographical position of Kwangsi, they will find their work pretty hard. If some of their countrymen were defeated, the rest would not be daring enough to go to the front. News have been received recently that the troops are not meeting with success but, on the contrary, defeat. If this continues to be so and is proved to be a fact, we are afraid that Viceroy Tsen will be clawed. It will be of no use to take the whole force of a country to suppress the rebels of one province. We hope the authorities will not seek for an immediate success of the work, and we still hope that those who blame the Viceroy will understand that this task is not an easy one.—*Shanghai Mercury*.

THE WORD OF HONOUR.

The men who do as they say; the things that prove to be what they were said to be,—how cheering it is to come upon them. We all hate to be deceived; especially when the deception is intentional. But all men are not liars, even if David did say so in his haste. If they were society would be impossible. Everybody knows that business is based on credit, on faith. Millions are bought and sold daily on nothing more solid than the pledged promises of men,—not written, merely verbal. The Stock Exchanges are often called nests of gamblers, yet nowhere is a promise held in greater honour. Therefore when we say that the tried and effective remedy called

WAMPOL'S PREPARATION never deceives any who resort to it in hope of benefit and cure, we may expect to be believed.

For this assurance is given on what it has done in the past in countless cases,—on its record. It is only recommended to accomplish what it was made to accomplish.

Its action in Chlorosis, Anemia, Scrofula, General Debility, Throat and Lung Troubles, Blood Impurities, etc., is convincing. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Dr. Austin D. Irvine, of Canada, says: "I have used it in cases where cod liver oil was indicated but could not be taken by the patient, and the results following were very gratifying." It is effective from the first dose and agrees with the most sensitive and nervous stomachs. One bottle proves its intrinsic value. It cannot deceive or disappoint you, and comes to the rescue of those who have received no benefit from any other treatment. It stands for the medical triumphs of the age. "Watch carefully against imitations." Sold by chemists here and everywhere and A. S. Watson & Co., Limited.

THE NEW CABINET.

A special wire from our London Correspondent, which is printed elsewhere, gives the composition of the new Cabinet which, to all appearances, is but a *pro tem* combination destined to carry on the affairs of State until Parliament meets again at the end of the long vacation, when a General Election will most probably be decided upon, and the country will be appealed to with respect to the adoption of a Protective Policy by Great Britain. From the names of the new Ministers it will be seen that the composition of the new Cabinet is the result of the judicious forethought of His Majesty, and his advisers, since the statesmen who are now in charge of affairs are all staunch supporters of the Imperial and foreign policies existing under the *regime* of Mr. Balfour's administration. In this manner the most important interests of the country will not have to suffer by the interim which separates us from the return of the people's representatives to the metropolis. It would be useless to enlarge on the past services rendered to the country by the New Ministers, three of whom—Lord Selborne, Mr. St. J. Broderick and Mr. A. Chamberlain—have filled responsible positions in former cabinets and, in consequence, are well known to the general public. It is interesting to note, however, that Mr. Arnold Forster, the new Secretary of State for War, who is the Unionist member for West Belfast, has never taken part in any preceding administration; nevertheless, his opinions on the fiscal policy proposed by Mr. Joseph Chamberlain are well known and only lately, in a speech delivered at Belfast, he declared himself a disciple of Protection, saying that he had begun as a Free Trader, but, as the result of grappling with the subject for himself, he had come to the conclusion that there is "great need for alteration in the present system."

THE native newspapers have a singular way of commenting upon the nomination of a new Taoist for Shanghai; for they declare, with charming naivete, that three influential Chinese gentlemen of that city have promised Tis. 300,000 to the functionaries at Peking on whom this nomination depends. Is this innocence or cynicism?

ACCORDING to a Peking wire of 6th inst., the majority of metropolitan officials, who are natives of Kwangsi, hold the view that, owing to Viceroy Tsen having no military experience, it would be well if the Viceroy Yuan Shih-kai were appointed Viceroy of Liang Kwang. It is reported that Viceroy Tsen wrote a friend of his in Peking that he wished to resign from his present post.

FROM Bangkok we learn that Mr. Geoffrey N. Saye, B. A., solicitor, has been engaged by Messrs. Tilke and Gibbins as assistant, and that he may be expected next month. Mr. Saye was educated at Repton and Trinity College, Oxford, where he took honours in the final law school. Mr. Saye has had several years' experience and during the last fourteen months was managing clerk to a London firm of solicitors.

IN its half-yearly report the *Compagnie Francaise des Chemins de fer de l'Indo-Chine* et du Yunnan states that the total receipts on the line from Haiphong to Hanoi during the months of April and May last amounted to 109,650 francs, though it also adds that nearly the whole of this sum was derived from passenger traffic and that very little transit of goods took place. This is no doubt owing to the fact that transit by river, though slower, is so much cheaper that local merchants find it to their interest to stick to the old methods, until the company can see its way to reduce the high rates which exist at present.

THE firms in Penang and the Native States are revising their price lists in accord with the increased value of the dollar, says the *S. F. Press*. Thus Pritchard & Co., Penang, fix their prices at 2/- and rise or fall 2/- per cent with each halfpenny, giving a liberal 10 per cent off for cash on general departments. We have no general movement of this kind in Singapore, and still have to pay 8/- cents for a shilling article. Nor has the cost of living decreased in the slightest, and the man on a sterling basis, or with exchange compensation, finds himself much worse off. Competition will no doubt in time bring down the cost of provisions, liquors, clothes, and European articles, but the time is not yet.

FROM a Seoul despatch to the *Mainichi* the *Kobe Herald* learns that a contract has been signed between the Treasury Bureau of the Imperial Household Department and Messrs. London & Co., a French concern in Seoul, for the operation of a smokeless coal mine at Pingyang. Machinery and a large quantity of cement have already been sent to Pingyang from Chemulpo. Four Russians accompanied the goods and it is believed that the project is a Russo-French joint undertaking. Permission to work the colliery was granted to Mr. Kasai, a Japanese subject, by Ye Yongyik in 1898, but a condition was made that it should only hold good for two years. The agreement then signed, however, reserved to the Japanese a right to negotiate for a renewal of the contract.

IMPORTANT OPIUM PROSECUTION.

ESTABLISHED CUSTOM THREATENED.

At the Police Court this afternoon Mr. Sercombe Smith heard an interesting case involving the established practice between dealers and merchants in the local opium trade, which apparently has had the sanction of custom for some years past. A coolie was charged on remand for a breach of section 11, of Ordinance 22 of 1887 respecting the removal of opium.

Mr. F. B. Deacon, of Messrs. Deacon and Hastings, appeared on behalf of the opium farmers and Mr. C. E. H. Beavis, of Messrs. Wilkinson and Grist, represented the defendant. Mr. Deacon said that the charge was laid under section 11 of Ordinance 22 of 1887 which is as follows:—"Every person moving a chest or chests of opium from one place to another within the Colony, or transshipping such chest or chests within the waters thereof shall, before doing so, furnish to the Superintendent a requisition properly filled up in the form of schedule F, whereupon the Superintendent shall furnish a permit in the form of schedule E authorising the transshipment or removal of the said opium, which permit shall be exhibited to the opium farmer or his agent, and shall be signed by him or his agent, and shall not be used or acted upon until it has been so signed." The essence of the case for the farmers depended upon the last words that the permit shall be exhibited to the opium farmer or his agent and shall be signed by him or his agent, and shall not be used or acted upon until it has been so signed.

The facts of the case were that on the morning of the 16th inst., two Excise officers in the employ of the opium farmers were on duty on the Pray, near the Central Market, when they saw a truck, in charge of two coolies, and loaded with two chests of raw opium. The officers asked them for their removal permit and they could not produce it. One of the coolies bolted and other was arrested. Word was sent to the farmers, it being subsequently ascertained that there had been no application for the permit. The opium was then taken to the Central Police Station. As a matter of fact, subsequent to that two permits were taken in to the farmers' office for signature one of which related to the two chests in question. The permit had been issued from the superintendent at the Harbour Office and was signed presumably by an authorised clerk on his behalf, but it was not taken to the farmers until after the opium had been seized. The difference of time was not very great, and if it were not for the principle involved he did not think the farmers would be anxious to press the present charge, but the fact remained that the habit of removing opium and subsequently obtaining the permits and taking them to the farmers for signature had been the cause of a great loss to the farmers. Every chest of opium was supposed to weigh 1,000 taels, but as a matter of fact almost every one was over that weight. The purchaser, from say people like Messrs. Sassoon & Co., who were big importers, obtained the opium from godowns and placed it in their establishment, and if they succeeded in getting it there before the permit was obtained from the farmers they would get the benefit of the overweight on each chest of opium, because they would be enabled to opium the chests, remove the surplus weight, and export the remainder as chest of a standard weight. The present case was one of the first, at all events of late, and had been brought with a view to putting a stop to the custom.

Mr. Beavis said he admitted there was a technical breach of the statute, but he certainly would not agree with all that had been stated by Mr. Deacon.

Mr. Deacon—I think you will admit the defendant had not the permit when the opium was being removed.

Mr. Beavis—Yes.

Mr. Deacon put one of the permits into Court and drew his Worship's attention to the wording of it, which provided for the weight of the opium at the time of sale being filled in. Supposing the quantity was written on the permit before the removal of the opium, the farmer would be properly protected. But it was the habit to avoid weighing and filling in the details on the permits that resulted in considerable fraud on the farmer.

His Worship said the Ordinance did not provide that the weight was to be filled in on the permit.

Mr. Deacon agreed, and added that the chop was put on by the superintendent.

His Worship—Is there an authority that it must be put on?

Mr. Deacon—No. Doubtless it was put on by one of the former farmers. Continuing, he asked his Worship to deal with the case as severely as he could do under the circumstances.

Mr. Deacon having intimated that he would call no witnesses,

Mr. Beavis said his friend had made certain statements which he would like him to prove. In the first place there was the question of the weight of the chests in question, and then the statement that inspection was made by the opium farmer before putting his chop on the permit to remove or export the drug, and also the observation that the chests were removed before application was made for a permit.

Mr. Deacon—I said it was not submitted to us for signature. There is one point I should mention. I did not suggest that we always sent down and weighed this opium, but we have the right to do so, which is the crux of the whole question.

His Worship—But the Ordinance does not give you the right.

Mr. Deacon—No, perhaps I should not say the right; it is more an opportunity. The only person who could deny us that advantage, if I may so term it, would be Messrs. Sassoon & Co. under whose control

the opium would be, or, as a matter of fact, any other big firm.

His Worship—You could not go to Messrs. Sassoon and say, "Here is an order to remove the chests, but we want to weigh it." You have no power to weigh it en route or when it gets to Kung Yuen Shing. There is no privilege or right and I do not see how you give that as a reason for inflicting a heavy penalty.

Mr. Deacon—I can prove to your Worship that these chests do weigh over the proper weight and there was no permit for removal, then I think it is a matter of inference to see where the loss comes in, and that is the reason why I asked you to deal with the case as severely as possible.

An assistant to the opium farmer having given evidence,

His Worship drew attention to the ruling in the celebrated appeal case of *Leung Yau and another v. P. C. Leonard*, heard before Sir Fielding Clarke and Mr. A. G. Wise on the 16th September, 1895, and dealing with the illegal removal of opium. It was then held that a coolie was not the person to be prosecuted, as in that event every coolie or boatman engaged in handling opium would have to take out a permit. Therefore, how could the present defendant be proceeded against?

Mr. Deacon then intimated that the charge would be withdrawn, and said the matter would be simplified if Mr. Beavis admitted the offence so far as Kung Yuen Shing was concerned.

Mr. Beavis said he could not do that, and Mr. Deacon said he should apply for a fresh summons against the defendant's master.

Replying to Mr. Beavis, his Worship said he could not make any order regarding the opium seized, unless it could be pointed out that he had the power to do so, and then he would use his discretion and make it one way or the other.

The defendant was discharged.

CRIMINAL SESSIONS.

THE ROBBERY AT "GLENWOOD."

The Chief Justice, Sir W. M. Goodman, disposed of the last case on the calendar this morning, and the September Criminal Sessions was concluded. Five men and a woman were lined up in the dock to answer charges in connection with the recent robbery of jewelry at Mrs. Gillander's residence in Caine Road, which was fully reported in a recent issue of the *Telegraph*. Leung Man, a house coolie, who had been in Mrs. Gillander's employ at "Glenwood", Caine Road, some five or six months prior to the robbery, was charged with stealing from that lady's residence on the 12th August, four gold jewelled finger rings, value \$140, eight sovereigns, a Japanese gold coin, value \$15, a French gold coin, value \$10.50, a gold pencil, value \$10, and three American \$10 notes representing a total value of \$611. A native woman, named Chan Lau Ching, was charged with receiving a gold solitaire diamond ring, value \$250, Leung Fong, with receiving a lady's gold diamond and ruby ring, value \$50, Ko Yeung and Yim Yam San, with receiving a lady's gold diamond and solitaire and ruby ring, value \$85, and Ip U with receiving a gold diamond solitaire and ruby ring, value \$85, and a lady's gold, ruby and diamond ring, value \$50 well knowing same to have been stolen. The house coolie admitted his guilt while the other prisoners denied receiving the jewelry.

The following jury was then sworn to deal with the matter—Messrs. J. W. Barber, B. E. Hastings, W. H. Watson, W. G. Clark, A. Brooke Smith, G. Rapp and A. D. Barretto.

The Attorney General (Hon. Sir H. S. Berkeley) instructed by the Crown solicitor, Mr. F. B. L. Bowley, prosecuted, and briefly stated the facts of the case, after which evidence was called, and the jury brought in a verdict of guilty in each case. The first prisoner was sent to gaol for two years with hard labour, the second to a month's imprisonment, the third, fourth and fifth to six months and the sixth to eighteen months.

DISCHARGED AND CAUTIONED.

In connection with the above case So Kon Shang, a jeweller, was indicted for receiving one of the rings. He was called upon, and addressing him, His Lordship said:—"So Kon Shang, the Attorney General has, I think, very properly entered a *non prosequi* in your case. You bought one of the stolen rings and sent it to Macao, but you got it back again, and I understand you have given it up to the police. Considering all the circumstances I do not think the evidence is sufficient to show that you knew it was stolen, and it is quite right not to put you on your trial. Let me caution you, however, to be very careful when diamond rings are knocking about in this fashion. You can be pretty sure they are not sold for small prices if they are honestly come by. I should strongly recommend you to buy no more, and if you do, not to send them to Macao. It looks very suspicious if you do that; it looks as though you were afraid to sell them in Hongkong. The case is really not before me, and I am only giving you a little friendly advice. You can go.

PROBABLE SALE OF THE "PEMBROKE"

While yet undergoing repairs, as reported in another part of this issue, we hear from reliable sources that the *Mitsui Bussan Kaisha* are negotiating for the purchase of the steamer *Pembroke*. The developments of the local trade demands more tonnage for the Japanese shipowners. In the event of their acquiring this fine steamer it is very probable that she will be made to ply between Moji and Hongkong. If negotiations are brought to a satisfactory conclusion, considerable internal alterations in the vessel will be necessitated, such, for instance, as the construction of deep tanks to be used for cargo or ballast. This will mean an additional job for the Dock Co.

THE DOCK COMPANY.

EXPEDITIOUS WORK ON THE "PEMBROKE."

Since it became known that the local Dock Company was interesting itself in the *s.s. Pembroke* with a view of bringing her to Hongkong for her extensive repairs, more than ordinary interest attached to the vessel by the Hongkong public. No allusion need be made to the splendid feat accomplished in docking the vessel at Kowloon in the condition she was in but a few weeks ago. The commendable expedition with which the work of repair is being carried out by the Kowloon Dock Co. is a tribute to the energy and resourcefulness of the staff and the extensive establishment. A visit to the Kowloon yard to-day revealed to our representative the extraordinary progress made in executing the work which had to be made on the battered hull before the *Pembroke* could take to the water again. It is expected that by the end of 3rd proximo the vessel will be spick and span again and, when out of the hands of the Dock Co., will be as good as a new steamer. To gauge the magnitude of the work undertaken it will suffice to say that the fore part of the ship had practically to be cut away to the main deck. The remainder was then heaved up on shore and the under part gradually bent. This is about the most difficult engineering feat yet accomplished by the Dock people in connection with the repairs of any one vessel. The vessel was kept in correct form during the whole process of cutting the lower part away, and test marks satisfactorily prove that she has not settled down. Too much praise cannot be bestowed upon Mr. Wilson, upon whom the most arduous part of this *magnus opus* fell. He has been ably assisted by Messrs. Graham and Russell.

We understand that the contract time for completing the repairs is seventy days, with an allowance of ten days for extracting the old frames and bent steel. Such, however, has been the rapidity with which the work has been pushed on that it is expected the vessel will be able to leave the slipway within sixty days, or about twenty days less than contract time—a truly satisfactory showing. Some material for the vessel had to be ordered out from home.

DEATH OF MR. E. J. MAIN.

It is with regret that we announce the death of Mr. E. J. Main, superintendent engineer of the Hongkong and Whampoa Dock Company, which took place at his quarters yesterday afternoon. Mr. Main was in his 56th year, and has been ailing for some time. He persisted, however, in continuing in his duties until Saturday afternoon when Doctors Swan and Jordan were summoned, and some hopes were entertained for his recovery. Unfortunately a turn for the worse took place and Mr. Main expired suddenly yesterday afternoon. The loss will be a severe one to all those connected with the deceased gentleman, who was a great favourite with everybody. He was a hard working man, whose patience and kindness were proverbial. He entered the service of the Dock Company in '84 as harbour engineer for the *Cosmopolitan* dock, and was appointed superintendent at the beginning of last year. It was reported that a masonic funeral would take place this afternoon, but owing to want of time the arrangement has been abandoned. The Dock Co. and ships in the vicinity half masted their flags and, as a token of respect, work was discontinued in the yards this afternoon. The late Mr. Main leaves a wife and two children.

ALLEGED CHILD MURDER

WOMAN CHARGED.

In our issue of the 18th inst., we reported that on the evening of the 16th P. C. 35, with a Chinese detective, noticed two men carrying a box and two other persons following. Being suspicious the constables approached them and the men threw down the box, which was subsequently found to contain the dead body of a male child about seven years of age. The Chinese detectives managed to arrest the fugitives two of whom were fined \$50 or two months each and the uncle of the child \$100 or three months. Further inquiries were made by the police and Lam Yau Mui, the mother of the child, was charged at the Magistracy yesterday with murdering her son, Tsang Kau.

Dr. F. Keyt, assistant Health Officer of the Port, and in charge of the mortuary at Yau-ma-ti, deposited that on the 17th inst., he made a *post mortem* examination of the body of a male child said to be about seven years of age. It was in an extreme state of emaciation, the muscles shrunken and devoid of fat, while the skin stretched like parchment over the bones. He concluded that death was due to starvation.

Mr. Sercombe Smith remanded the prisoner until Thursday.

"A GAY NIGHT IN PARIS."

As already stated in our columns the Pollard Comedy Company opens at the Theatre Royal, this evening with *A Gay Night in Paris*, concerning which the *N. C. D. News* say it is unquestionably a play to laugh over. Criticising its production by the Pollards in Shanghai, the journal observes that the audience laughed itself into complete ecstacy with the stage. The exhilaration in the front of the house reacted behind the footlights and the three acts went through with splendid good will. Mr. Noble, in the highest spirits, put a lot of character into the part of the old singer *Pinglet*, and Miss Lawrence's *Marcella* was a fitting companion in mischief. The injured wife and husband were suitably portrayed by Miss Blanche Clements and Mr. Wentworth Watson respectively. Mr. Harold Carr excelled himself as *Mathieu*, the stammering old bore, who is always turning up at inconvenient moments and refusing to be suppressed, while his two daughters were almost too gaily impersonated by Misses Ascoli and Tempest. Mr. Merry Lynch's knowing old waiter must be specially mentioned. The racket at the hotel, where everyone falls over everyone else in mutually inconvenient situations, was one of the maddest bits of tumbling hilarity lately seen in Shanghai.

CANTON NOTES.

(From Our Own Correspondent.)

THE SHOOTING ACCIDENT.

The woman who was brought into the hospital some days ago suffering from a revolver shot has died. I have not heard whether or not the French Consul has ordered an investigation. Perhaps we will hear no more of the matter.

THE CITY.

Large crowds are in the city to-day. The time for the "ta tsu" has arrived. Street after street is hung with lamps and pictures and the streets are full of people. It is difficult to make one's way along. The new police system is being extended. To-day's squads of these policemen are standing about the streets with rifles and keeping the crowds moving. I have never seen such precautions taken to keep the peace. The officials are very much afraid of trouble. It is reported that the Viceroy will return in a few days from Kwangsi.

ROBBERIES.

Robberies are on the increase in the country and especially along the rivers. It is difficult for any person to get money to or from the city. Spies are watching all the centres from which money is sent and then the robbers follow up and secure the spoil. In some country cities it is unsafe to walk the streets after night. Men and women found on the street are stripped of their clothes.

THE ORIENTE HOTEL.

PURCHASED BY THE INSULAR GOVERNMENT.

As reported several weeks ago in these columns the Oriente Hotel has been sold and, according to the *Cable News*, the Insular Government has rescinded its resolution, disaffirming its contract to buy the property. It has accepted the offer of the Oriente Hotel Company to take the land and buildings for \$575,000 Mexican currency.

According to present arrangements, the hotel will leave the hotel between the middle of October and the first of November. The buildings are to be used for offices for Insular bureaus—those for the housing of which the Government is now paying rent. The Post Office will remain where it is, and probably by that time the Government will have found a more suitable location for it.

The action of the Commission in concluding to buy the property of the Oriente Hotel Company, is the result of the showings made by the attorneys for the Oriente Hotel Company, Pillsbury and Sutro. The Commission met on 18th inst. and took up the matter. The whole course of dealings between the Oriente Hotel Company and Commissioner James F. Smith, representing the Government, was gone through. Governor Taft made a statement embodying all the correspondence between the two parties to the contract, and the entire discussion of the Commission.

THE NEW SUGAR LAW.

A CURIOUS OMISSION.

Mr. Sigmund Stein, the well-known Liverpool sugar expert, has discovered and pointed out to a correspondent of the *Pall Mall Gazette* a curious omission in the Act applying the Sugar Convention to this country. According to that agreement, the manufacturers in the countries signatory to it receive a surtax of six francs per hundred kilos of refined sugar, which is equal to 25.6d. per cwt. There is no mention, however, in the new Sugar Law as to the British refiner receiving this boon, though by the Convention he is entitled to it. When the foreigner imports sugar to England he has now to pay an import duty of 45.2d. per cwt. of refined sugar. The British refiner has to pay the same amount on his output. But so that he may be placed on the same footing as his fellows on the Continent he should only have to pay 12.8d. That is, has the right to claim a rebate of 25.6d.—a sum equal, in fact, to the surtax which his rivals receive.

This, Mr. Stein pointed out, is a very important matter. It means, for example, a rebate of 25.6d. on every ton of refined sugar. How the omission is to be made good is not easy to see, but if the Convention is to be enforced, to the letter, the British refiner must be accorded the same benefits as these competitors, who have already done so much to ruin his business. Mr. Stein thinks unless the rebate is allowed it will prevent the development of the best-growing industry in England, for the refiner will find himself unable to pay a price for the beet that would satisfy the agriculturist.

PHILIPPINE HEMP.

BY A PRACTICAL HEMP MAN.

There has been a deal of talk lately as to the quality of Manila hemp, as somehow or another it seems that a deal of weak fibre had got to the United States of America, giving rise to serious claims. The Manila Government, taking up the matter, promulgated in June last a law of inspection and classification by Government inspectors, which, if anything, will make matters worse, besides being most prejudicial to all hemp merchants, dealers, and to the Philippines in general. To-day it may be said that the only product that sustains the Islands is hemp, all other agricultural operations being nil owing to want of oxen or buffaloes to till the soil. There is really no reason for this falling off in the quality of hemp exported from the Philippines; for, at any rate, the fault does not lie with the plant, or hemp tree, and is all a question of the slovenly manner in which the natives have been cleaning hemp since the spurt in fibre of 1889; and as the merchants during the spurt were not in anywise careful of the quality as in former times, this gradually got worse and worse, especially during the time of the Spanish-American war and Philippine Revolution. Then owing to the great advance in the hemp market every buyer of hemp got greedy and careless, thinking that during an advancing market anything would pass without a claim for bad quality. In the good old Philippine days when the quality of hemp declined in the smallest degree, an order from the Spanish Governors was quite sufficient to avoid such a thing continuing, and the merchants, through their provincial agents, were able to keep up a very high standard of hemp. This can be seen by referring to the shipments of hemp from, say 1870 to 1880, when such a thing as red hemp was difficult to find above about 1 to 1 per cent. at the most. If this could be done in those days, why should the same not be done to-day? It is only a question of the hemp merchants being firm and refusing to take the badly cleaned fibre after a certain date, which may be easily fixed at, say, a month, and the world will again see the Philippine hemp as it should be, there being no need of Government inspection and classification, as this can only cause serious inconvenience to all hemp merchants, besides leading to many abuses and other manipulations on the part of the Government inspectors.

As a very old and practical hand in the hemp trade, I may mention that there grows no such qualities of hemp as seconds, fair seconds, good red, coarse red, &c. All hemp-trees yield pure white and fine fibre if properly cleaned, the only red fibres being those that proceed from the one or two outer layers of the hemp tree. If the native has his cleaning knife properly arranged and with the proper pressure on it, he cannot possibly make coarse or weak fibre, but naturally he has been gradually loosening the pressure on his knife, as also putting teeth to the edge, as his work is so much easier. As he found eager and greedy merchants ready to buy whatever he brought as hemp, naturally he saw no use in making the good fibre. The owners of hemp plantations naturally also incline to the making of coarse fibre, as the waste is so very much less, and even taking into account the reductions made on seconds and red, there is still a margin for the badly cleaned hemp, not mentioning the saving of time to the hemp cleaners. The provincial agents who are employed by the export firms of Manila and Cebu to buy hemp on their account usually get a commission allowed them on their purchases, besides a good salary, so when there is any demand for hemp competition is very keen, and each agent endeavours, of course, to buy as much as possible, overlooking at first sight differences that he may notice in the quality of the fibre; and so the thing goes on until a disgraceful quality is the result, and nowadays it is not quite so easy for the municipal authorities to do what they used to in the days gone by.

The qualities of hemp if properly cleaned should not exceed three or four at the utmost, say, "superior," "current," "seconds," and "red." The second grades should be used only for such hemp that may have been spoiled by getting wet, by careless treatment, and is not up to the colour of current. Any other qualities which are made only tend to confusion, and give rise to claims whenever the market gets weak after a strong demand. Anyone who knows what hemp is must also be aware how very difficult it is to classify properly more than the three grades above mentioned, as all is done by simple eyesight, and as hardly any day gives the same kind of light, nor yet on the same day, the task of making so many grades of hemp as now exist can be easily understood. If England really acquires a coarse red fibre such as is made in the town of Daet, in the Philippine Islands, well and good, but such quality should be paid for at a very low figure as compared with the price of current, and as the demand for such a grade cannot be very great, perhaps the town of Daet, and some other one, can produce all that is wanted, provided it suits them to make such hemp, but there is no earthly reason for all the hemp districts to make such vile stuff. A rope made of good clean Philippine hemp will bear an extraordinary weight, and it may be asserted that there is no fibre in the world that can in any way compare to what is called Manila hemp, say of superior or coarse grades of nicely cleaned fibre. It is a shame that through neglect, ambition and carelessness the quality should have been allowed to become what it is to-day.

If the hemp in the uncleaned state is white, why should it be tolerated that through slovenly cleaning the fibre should become discoloured, be coarse, to the discredit of its value in the consuming markets? If the Manila merchants will only work together in the way I suggest, I am sure the United States Government will abolish the new law on inspection and classification, as there would really be no need for

such a law. I hope I have made matters clear to the public, and should my lines be of any use, and be the means of improving the quality of hemp, I shall be indeed pleased.—L. and C. Express.

BRITISH INDIAN TROOPS IN CHINA.

General Frey, of the French Army, contributes to the *Revue des Deux Mondes* an interesting article on the Allies in Pekin. With regard to our native Indian troops, he says that some of the European contingents, who had only heard travellers' tales about the Sikhs, Gurkhas, Punjabis, and other Indian races, were very angry at being asked to receive them as brethren in arms. This prejudice remained even to the end of the campaign, but not at all, says General Frey, among those of the Allies who saw these troops at work.

The coolie camp-followers who attended the British contingent did not behave well, and their misdeeds were commonly, but unjustly, attributed to the Sikhs. He considers that the native Indian troops need not fear comparison with the native troops of any other Power. He particularly admires the Bengal Lancers, whom he calls magnificent troops. The particular defect of the Indian forces, he notes, was that they were insufficiently strengthened by white officers.

SHELL TRANSPORT CO., LTD.

Some discontent appears to have arisen in consequence of the delay in issuing the 1901 report of the Shell Transport and Trading Company (Limited), says a writer in the *Pall Mall Gazette*. This huge enterprise whose capital, despite the fact that the company was only registered in October, 1897, has grown from £1,800,000 to £3,000,000, controls some very varied enterprises. It transports in bulk illuminating fuel, gas oils and other petroleum products, and also has £861,000 invested in a company working oil-fields in Dutch Borneo. Until the date of the last issued report, that for 1901, the Shell Transport Company did very well. In the four complete years of trading the net profit, before allowing for depreciation of the reserve, had grown from £195,701 to £203,538, and the Ordinary dividends had risen from 6 to 10 per cent. At the end of 1901 the reserve amounted to £400,000 and £26,732 was carried forward. In January, 1902, an interim dividend of sixpence per share was paid, and then night settled down as far as information was concerned. When no further dividend on account of 1902 was paid in the summer of that year the shareholders first began to be uneasy. When rumours floated round that the company, despairing of getting sufficient petroleum from the East Indies, was hunting for freight in the Black Sea, they grew more apprehensive, and wanted the annual report to see where they were. It is very reasonable to accept the directors' statement that the part taken by the Shell Company in forming the big oil-distributing concern known as the Asiatic Petroleum Company has rendered it impossible for them to get the accounts made out at the usual time, but no less than two months ago they told the shareholders that the balance-sheet was being prepared and would be laid before them with as little delay as possible. Everything may be all right, but shipping shareholders are all nervous in view of recent freight market experiences, and the Shell Transport shareholders naturally want to know whether their interests have suffered.

COMMERCIAL.

FREIGHT.

The fixtures for the week ended last Saturday have not been many in number, being limited to half a dozen vessels only. A German vessel (1,146 tons) Newchwang to Canton was booked at 23 cents per picul. For timber loading a Norwegian steamer (761 tons) was chartered, Rajah to Hongkong, at \$8.75 in full. The briskness in the Sugar trade continues to provide engagements for suitable vessels; one of 989 tons (Swedish) has secured 30 cents per picul for 2 ports N.C. Java to Hongkong. One settlement was effected on the following terms:—German steamer, 822 tons, Iloilo to Ningpo and Shanghai, \$5,000 in full; while another boat of rather larger tonnage (966) and of the same nationality was booked upon terms privately arranged. The monthly charter of a German steamer (1,201 tons) has been effected hence to Mauritius and back at \$6.30 per month.

THE HONGKONG TELEGRAPH.

1, ICE HOUSE ROAD,
HONGKONG.

CABLE ADDRESS.—Telegraph, Hongkong.

THE leading English Newspaper in China. Also widely circulated in Japan, Cochinchina, Ceylon, India, and the Far East generally.

A daily newspaper with weekly edition published for despatch by the homeward mail. The daily is recommended as more generally suitable, except for subscribers in Europe or America.

A special feature is made of full and accurate reports of local occurrences, and of matters of general interest.

ADVERTISING DEPARTMENT.

The Hongkong Telegraph is the best medium for advertising in China. It circulates largely among all classes of the community, is the largest daily newspaper and has a wider circulation than any journal in the Far East.

Special attention given to effectively displaying advertisements.

The type used as a standard for setting advertisements is similar to this, unless we are instructed to display the advertisement, when any effective style of type will be adopted. This standard runs exactly eight lines to the inch, and about eight words to the line.

ADVERTISEMENT RATES.

at each insertion in the Daily and Weekly.

CONTRACT ADVERTISEMENTS.

Special Rates for standing advertisements can be ascertained from the Manager.

Advertisements for the Daily should reach the Hongkong Telegraph Office not later than noon of the day they are intended to appear.

Unless otherwise specified all advertisements will be repeated and charged for until countermanded.

JOBING DEPARTMENT.

Job Printing of all descriptions undertaken. PROGRAMMES.

PAMPHLETS,

WEATHER FORECASTS AND
STORM-WARNINGS ISSUED
FROM THE HONGKONG
OBSERVATORY.

METEOROLOGICAL SIGNALS.

Meteorological signals are hoisted on the mast beside the Time-ball at Kowloon Point for the information of masters of vessels leaving the port. They do not imply that bad weather is expected here:—

A DRUM indicates a typhoon to the Eastward of the Colony, (i.e., in the East quadrant, N.E. to S.E.)

A BALL indicates a typhoon to the Westward of the Colony, (i.e., in the West quadrant, S.W. to N.W.)

A CONE Point Upwards indicates a typhoon to the Northward of the Colony, (i.e., in the North quadrant, N.W. to N.E.)

A CONE Point Downwards indicates a typhoon to the Southward of the Colony, (i.e., in the South quadrant, S.E. to S.W.)

Red Signals indicate that the centre is believed to be more than 300 miles away from the Colony.

Black Signals indicate that the centre is believed to be less than 300 miles away from the Colony.

NIGHT SIGNALS.

Two lanterns hoisted vertically indicate bad weather in the Colony and that the wind is expected to veer.

Two lanterns hoisted horizontally indicate bad weather in the Colony and that the wind is expected to back.

The signals are repeated on the flagstaff of the Godown Company at Kowloon, and also, by day only, at the Harbour Office and on H.M.'s Receiving Ship.

LOCAL STORM-WARNINGS.

The Colony itself is warned of approaching typhoons by means of the Typhoon Gun placed at the foot of the mast, which is fired whenever a strong gale of wind is expected to blow here.

NOTICE BOARDS.

Notice boards are placed at:—

Joint Cable Companies' Office.

Ferry Company's Pier, Ice House Street.

Blake Pier.

Post Office.

Harbour Office.

Office of the Wharf & Godown Company,

Kowloon.

WEATHER FORECASTS AND STORM-WARNINGS are exhibited on the above boards daily about 11 a.m., and also at other hours, day or night, whenever necessary. Information of importance is also issued by "Express."

THE CHINA COAST METEOROLOGICAL REGISTER is exhibited at the same places daily about noon. It contains observations made at Hongkong and at a number of stations in the Far East, together with Remarks, Weather forecasts, and information regarding the existence and movements of typhoons based thereon.

THE LAW OF STORMS.

Further information concerning the weather, to be expected while signals are hoisted, and sailing directions, are given in "The Law of Storms in the Eastern Seas."

F. G. Figg,

Acting Director.
